PRINTED AND INSTALLED ONE PIECE WALLPAPER

Once we have created your bespoke wall design, we print it as the name implies in **one piece!**

That means no pattern matching, no pasting table and best of all no joins!

All wallpapers we print are tailored to your exact wall size and guaranteed to fit.

Our Polytac fabric is a tough fabric backed material, making it highly durable. It is also fire rated for commercial use in offices, schools, bars, shops and restaurants.
